Dear all

Please find attached a copy of the fixture spreadsheet as it currently stands. If you spot any errors on this or the website, please let me know asap. Just a reminder that I cannot accept a fixture unless I have date / match start time / venue.

Now that we're past the registration deadline, I'll be doing the last batch of player numbers and e-scoring player updates tonight and tomorrow, in preparation for the weekend. Please note that any players without a player number are ineligible to play this weekend, in accordance with the competition rules.

Finally, with the weekend fast approaching, please would home times advise of their referee appointments asap. I've also attached an updated referee list for information too.

As always, any queries, please let me know asap.
