

## CLUB COMMUNICATIONS 2024-25 SEASON

Date Sent	4 <sup>th</sup> October 2024
Subject(s)	Week 1 Update

Dear all

With the opening weekend of the season fast approaching, I just wanted to thank you for all your help in getting all the admin work in place ready for the start of another exciting season. We simply can't run competitions without your help out there at the clubs, but we've got there in the end.

The big innovation to look forward to is the e-scoring, and I wanted to wish good luck to all those home teams out there who will be e-scoring for the first time, and appreciation for the experts who will be carrying on where they left off last season. As you've seen, the software is intuitive, avoids the need for handwriting, and the Undo button is always there if you need it. Worth remembering to have the usb drive plugged in, and a copy of the operating manual on your desktop... just in case.

If there are any issues, please let me know. I'll be online or dad-taxiing around Dublin 15, so won't be far away if anything happens.

Thanks again, and here's to another successful season.
